All units available for sale require some degree of repair and are evaluated on an individual basis. Units range from like-new to significant damage. Some common necessary repairs you may encounter include, but are not limited to:

- Water intrusion damage.
- Missing and non-operable components.
- Storm, usage and road structural damage.

Those acquiring units are strongly encouraged to inspect them during designated open-site visits. Units are disposed of "as-is, where-is" in a mobile condition. Those acquiring units are responsible for roadworthiness and site visit are at the risk of the individual or organization obtaining the unit(s).
